

10. Habitat refers to
- Physical conditions of the place where organism live
  - Chemical conditions of the place where organism live
  - Both (a) and (b)
  - Neither (a) nor (b)
11. Important physical factor responsible for a good habitat of a organisms
- Light
  - Temperature
  - Humidity
  - All the above
12. Which of the following is not a prominent chemical responsible for a good habitat
- Oxygen
  - Carbondioxide
  - SO<sub>2</sub>
  - Nutrients (Minerals)
13. The term 'Environment' has been derived from the French word ----- which means to encircle or surround
- Environ
  - Oikos
  - Geo
  - Aqua
14. The objective of environmental education is
- Raise consciousness about environmental conditions
  - To teach environmental appropriate behavior
  - Create an environmental ethic
  - All the above
15. Which of the following conceptual spheres of the environment is having the least storage capacity for matter?
- Atmosphere
  - Lithosphere
  - Hydrosphere
  - Biosphere
16. Which of the following components of the environment are effective transporters of matter?
- Atmosphere and hydrosphere
  - Atmosphere and lithosphere
  - Hydrosphere and Lithosphere
  - Biosphere and lithosphere
17. Biosphere is
- The solid shell of inorganic materials on the surface of the earth
  - The thin shell of organic matter on the surface of earth comprising of all the living thing
  - The sphere which occupies the maximum volume of all of the spheres
  - All of the above
18. Atmosphere consists of 79% of Nitrogen and 21% of Oxygen by
- Volume
  - Weight
  - Density
  - All the above
19. Which of the following is a biotic component of an ecosystem?
- Fungi
  - Solar light
  - Temperature
  - Humidity
20. In an ecosystem, the flow of energy is
- Bidirectional
  - Unidirectional
  - Cyclic
  - Multidirectional
21. The organisms who directly feed on producers are called
- Herbivores
  - Carnivores
  - Decomposers
  - Saprophytes
